1. SITE IDENTIFICATION

[Back to top](#)

1.1 Type C	1.2 Site code ES0000211
----------------------	-----------------------------------

1.3 Site name

Desembocadura del riu Millars

1.4 First Compilation date 2000-12	1.5 Update date 2009-06
--	-----------------------------------

1.6 Respondent:

Name/Organisation:	Conselleria d'Infraestructures,Territori i Medi Ambient. Generalitat Valenciana
Address:	C/ Francisco Cubells, 7. 46011 Valencia (España)
Email:	nebot_jos@gva.es

1.7 Site indication and designation / classification dates

Date site classified as SPA:	2000-05
National legal reference of SPA designation	Acuerdo de 5 de junio de 2009, del Consell, de ampliación de la Red de Zonas de Especial Protección para las Aves (ZEPA) de la Comunitat Valenciana. (DOCV num 6031, de 09.06.2009) y Acuerdo de 27 de noviembre de 2009, del Consell, de corrección de errores en los anexos I y II del Acuerdo de 5 de junio, del Consell, de ampliación de la Red de Zonas de Especial Protección para las Aves (ZEPA) de la Comunitat Valenciana. (DOCV num 6155 de 30.11.2009)
Date site proposed as SCI:	2001-07
Date site confirmed as SCI:	No data
Date site designated as SAC:	No data
National legal reference of SAC designation:	No data

Group: A = Amphibians, B = Birds, F = Fish, I = Invertebrates, M = Mammals, P = Plants, R = Reptiles

S: in case that the data on species are sensitive and therefore have to be blocked for any public access enter: yes

NP: in case that a species is no longer present in the site enter: x (optional)

Type: p = permanent, r = reproducing, c = concentration, w = wintering (for plant and non-migratory species use permanent)

Unit: i = individuals, p = pairs or other units according to the Standard list of population units and codes in accordance with Article 12 and 17 reporting (see [reference portal](#))

Abundance categories (Cat.): C = common, R = rare, V = very rare, P = present - to fill if data are deficient (DD) or in addition to population size information

Data quality: G = 'Good' (e.g. based on surveys); M = 'Moderate' (e.g. based on partial data with some extrapolation); P = 'Poor' (e.g. rough estimation); VP = 'Very poor' (use this category only, if not even a rough estimation of the population size can be made, in this case the fields for population size can remain empty, but the field "Abundance categories" has to be filled in)

4. SITE DESCRIPTION

4.1 General site character

[Back to top](#)

Habitat class	% Cover
N05	2.0
N06	15.0
N08	40.0
N09	10.0
N23	28.0
N07	5.0
Total Habitat Cover	100

Other Site Characteristics

Representa el tramo final del río Mijares, en cuya desembocadura se formó un pequeño delta. El cauce circula dentro de unos diques elevados artificialmente con materiales propios de la zona (cantos rodados), estando la mayor parte de la superficie restante cubierta por amplias extensiones de grava con vegetación anual. En el último kilómetro de río se desarrollan carrizales donde la lámina de agua es más constante.

4.2 Quality and importance

Alberga poblaciones nidificantes de 5 especies de aves acuáticas incluidas del Anexo I, e invernán de forma regular hasta 5 especies del mismo anexo. Ha tenido importancia regional para el Chorlito Patinegro y Cigüeñuela Común, aunque cambios recientes en la morfología del cauce han mermado las características del entorno para la nidificación de estas aves desde 2003. Zona de paso e invernada para diversas especies de aves acuáticas, si bien sus poblaciones son poco relevantes respecto a los totales nacionales. Los rangos de las poblaciones de aves reflejadas en el apartado 3.2 muestran los contingentes mínimos y máximos registrados en el periodo 2003-2008, elaborados a partir de censos oficiales.

4.3 Threats, pressures and activities with impacts on the site

The most important impacts and activities with high effect on the site

Negative Impacts			
Rank	Threats and pressures [code]	Pollution (optional) [code]	inside/outside [i o b]
M	J02.03		I
M	E03.03		I
M	C01.04		I
H	E03.01		I

Positive Impacts			
Rank	Activities, management [code]	Pollution (optional) [code]	inside/outside [i o b]
M	J02.03		I

Rank: H = high, M = medium, L = low

Pollution: N = Nitrogen input, P = Phosphor/Phosphate input, A = Acid input/acidification,

T = toxic inorganic chemicals, O = toxic organic chemicals, X = Mixed pollutions

i = inside, o = outside, b = both

5. SITE PROTECTION STATUS (optional)

5.1 Designation types at national and regional level:

[Back to top](#)

Code	Cover [%]	Code	Cover [%]	Code	Cover [%]
ES21	100.0				

6. SITE MANAGEMENT

6.1 Body(ies) responsible for the site management:

[Back to top](#)

Organisation:	Conselleria d'Infraestructures, Territori i Medi Ambient. Generalitat Valenciana
Address:	C/ Francisco Cubells, 7. 46011 Valencia (España)
Email:	nebot_jos@gva.es

6.2 Management Plan(s):

An actual management plan does exist:

- Yes
 No, but in preparation
 No

7. MAP OF THE SITES

[Back to top](#)

INSPIRE ID:

Map delivered as PDF in electronic format (optional)

- Yes No

Reference(s) to the original map used for the digitalisation of the electronic boundaries (optional).
